Juheon Cho Solo Exhibition “@project.dear.diary”

JungHyun Gallery is thrilled to announce the highly anticipated "Drawing Project" solo exhibition of renowned Korean painter Juheon Cho in Wrocław, Poland from February 4th to 25th, 2023. This exhibition will showcase over 70 new drawings by the artist, presenting a unique opportunity for art enthusiasts and collectors to witness the creative vision and technical prowess of one of the most talented Korean painters of our time.

The "Drawing Project" exhibition is a continuation of Juheon Cho's successful solo exhibition at Villa Heike in East Berlin, Germany in 2021, where she was praised for her exceptional three-dimensional paintings. In this exhibition, Juheon Cho will once again astound audiences with her innovative and expressive works, capturing the essence of her experiences as a stranger in Berlin through her personal language of pens and paper.

At the "Drawing Project" exhibition, Juheon Cho will present her work in a manner that conveys the delicacy and subtleties of her experiences. She recorded her emotions and memories in her drawings, carefully portraying her identity and the actions of her five senses. The artist's expression method is combined with the traditional techniques of Korean painting, adding a static quality to her work and amplifying its delicate nature.

Juheon Cho, who has a passion for capturing life's fleeting moments and preserving them through her art, stated, "I started drawing to quickly record my feelings before they evaporated during the time of making panels and applying paper. With paper and coloured pencils, I can express my feelings in colours and shapes, and I can relieve anxiety about disappearing."

CEO Shin Jae Park of JungHyun Gallery emphasised the significance of the exhibition, stating, "The gallery's 70 different works are eventually the artist's 70 emotional records. Through the work with Juheon Cho, who visualises and records the moments of human emotion, the gallery hopes the audience will be fascinated by the artist and empathise with the work." She further added, "It would be nice to understand that the 70 works of Juheon Cho, who will be presented at our gallery, are instant emotional records of her experiences, and the audience can easily sympathise with and also be fascinated by her works."

Juheon Cho has participated in several individual and group exhibitions since her first solo show, "The Little Boy and Atomic Land," in London in 2015. She has received widespread recognition for her unique style and exceptional talent, and continues to live and work in Berlin, Germany.

JungHyun Gallery, established in Wrocław, Poland, is dedicated to promoting Korean artists on the international art scene and fostering cultural exchange through exhibitions of both domestic and overseas artists. Under the leadership of CEO Shin Jae Park, the gallery has become a hub for artistic expression and cultural exchange, providing a platform for artists to showcase their work to a wider audience.

In conclusion, the "Drawing Project" solo exhibition of Juheon Cho is an event not to be missed. The exhibition promises to be a visual feast for art lovers, showcasing the exceptional talent of one of the most prominent Korean painters of our time. JungHyun Gallery invites everyone to come and experience the beauty and emotion of Juheon Cho's work in person.
